

NEW Enviro Detergents

Introducing the **NEW Enviro Range** of Detergents by Rhima

SAFE AND CONVENIENT

The Enviro Range ensures safe delivery of the product without spillage, leaks or splashing and is colour-coded for ease of use.

This system significantly reduces work health and safety issues associated with traditional systems. The new safety cap design prevents the user coming into contact with the chemical when changing bottles, or if the bottle is accidentally knocked over.

- Completely sealed
- No spills
- Closed loop system

HOW IT WORKS

Rhima will fit chemical caps to your existing dishwasher and when you order more detergent, you just unscrew the new lid and fit the existing one connected to your dishwasher. It's as easy as that!

Just remember that the yellow cap is for Superwash Enviro and the blue cap is for Final Rinse Enviro.
